## HEALTH BOARD TAKES ACTION

All Public Places Will be Closed at 6 O'clock Tonight to Avoid Epidemic.

As a precautionary measure against the outbreak of Spanish influenza, all schools, churches, theaters, billiard parlors, bowling alleys, lodges, dance halls and other public places of amusement will close at six o'clock this evening and remain closed until further notice.

This action was taken at a full meeting of the local board of health held in the mayor's parlors Friday morning. The board emphasizes the fact that there is no epidemic in Mishawaka, and that its only reason for coming to this decision is to safeguard the public health and to do all in its power to prevent an epidemic.

Posters are being prepared and will be posted in all business places. These will set forth that it is necessary for everyone to help prevent an epidemic of Spanish influenza in the city. The public will be asked not to loaf, and to make its purchases and leave the stores immediately after its business is finished. This is by the order of the board of health.

Parents are urged to keep their children at home, and by all means to prevent them from running on the streets.

Following is the proclamation which is signed by Dr. L. P. Van Rie, Dr. W. B. Christophal and H. L. Willard, who comprise the local board of health:

WHEREAS an epidemic of influenza is prevalent throughout the United States, the board of health of the city of Mishawaka deems it expedient as a precautionary measure to guard against the outbreak of the disease in this city, to order the closing of all schools, churches, theaters, billiard parlors, bowling alleys, lodges, dance halls, and other public places of amusement in the city of Mishawaka.

THEREFORE it is hereby ordered that all such places of close from 6 o'clock p. m. October 11th, 1918 until further notice. It is understood that this order is intended to cover public gatherings of every kind.

This order is issued to safeguard the public health, and is upon the order of the state board of health, and in conformity with similar action taken by municipalities throughout the country, and in harmony with public sentiment throughout the city.

## CHRISTMAS GIFTS FOR SAILOR BOYS

Those on Board the "Indiana" Will Again be Remembered This Year.

Mrs. George B. Williams has charge of the local end of the campaign to provide Christmas cheer for the 1,000 boys on the battleship "Indiana," and has issued an appeal to the women of Mishawaka to contribute towards this most worthy subject. The present location of the warship is not exactly known, but those in charge of the campaign throughout the state have given their assurance that all parcels contributed will reach the boys in time for Christmas. Mrs. Williams suggests the following articles as best suited for Christmas gifts: Comfort kits, knitted articles of useful assortment and cash donations. Different organizations, societies, etc. are adopting one article such as stationery, fountain pens, toilet articles and such like, and by this means hope to cover the entire list of articles suitable for the navy boys.

Reports of the activities of the workers may be made to the County Council of Defense or to Mrs. Williams who will acknowledge all contributions, and will be glad to help out with suggestions. The campaign will start immediately.

## POLITICAL CAMPAIGN EXPENSES MAY BE PLACED ON TAX LIST

WASHINGTON, Oct. 11.—Political campaign contributions could be taxed under an amendment to the war revenue bill introduced today by Sen. Thomas of Colorado, and referred to the senate finance committee, which is revising the house draft of the measure. The amendment provides that all contributions exceeding \$500 shall be taxed 100 per cent, while lesser amounts would be subjected to lower rates. The finance committee made but little progress today in its revision.

The provision for a super tax of 10 per cent on platinum used in the manufacture of jewelry was stricken from the bill. Jewelers appearing before the committee argued that the value of platinum used by them is not sufficient to warrant an additional tax of 10 per cent and that the government did not demand the metal they are using.
